Loan Interest Rate & Fees

Your **starting interest rate** will be between

3.13% and **8.13%**

After the starting rate is set, your rate will then vary with the market.

Your Starting Interest Rate (upon approval)

The interest rate you pay will be determined after you apply. It will be based upon your credit history and income or your cosigner's credit and income. If approved, we will notify you of the rate you qualify for within the stated range.

Your Interest Rate during the life of the loan

Your rate is variable. This means that your rate could move lower or higher than the rates on this form. The variable rate is based upon the one-month LIBOR published as the US0001M Index by Bloomberg. For more information on this rate, see the Reference Notes.

Although the rate will vary after you are approved, **it will never exceed 18.00%** (the maximum allowable for this loan).

Loan Fees

Late Charge: Greater of \$10.00 or 5% of the required payment amount
Returned Check Fee: \$29.00

REFERENCE NOTES

Variable Interest Rate

This loan has a variable interest rate that is based on a publicly available index, the one-month ICE LIBOR, as published as the US0001M index by Bloomberg on the 10th day (or the next business day thereafter) of the preceding month, rounded up to the nearest one-eighth of one percent (0.125%). Your rate will be calculated on the first day of each calendar quarter by adding your margin (ranging from 3.00% and 8.00%) to the index. If the current index is no longer in use or available, the lender will choose a comparable index.

The rate will not increase more than once a calendar quarter, but there is no limit on the amount that the rate could increase at one time. Your rate may increase or decrease quarterly if the one-month LIBOR index changes, which will affect your monthly payment. If the interest rate increases, your monthly payments will be higher.

A cosigner is not required, but rates may be higher without a cosigner who has better credit than the borrower.
